GABRIELA LUKACOVA

Digital designer

UX/UI • Digital strategy • Marketing

I turn ideas into digital experiences that look good, feel natural and make sense — combining creativity, technical understanding and a user-first mindset to create solutions with purpose.

- Turned business information into clear, visually engaging presentations and marketing materials.
- Adapted content for different audiences to create focused and effective communication.

> *Making digital experiences feel a little more human.*

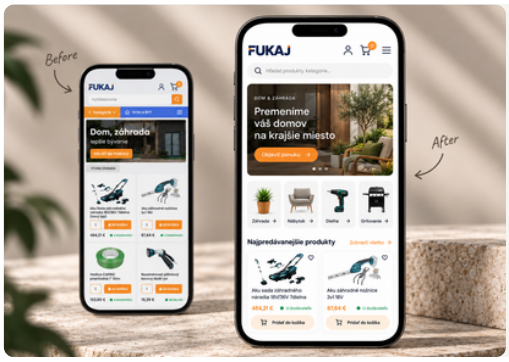

Selected projects

KIM'S FRISØR — Website Design & Development

Designed and built a complete website for a real barber business, taking the project from concept and UX/UI design to a fully functional product. Developed the frontend, backend and database while keeping usability, responsiveness and visual identity at the core.

UX/UI · Website Design · Full-stack · Database

FUKAJ — Website Redesign

Redesigned an existing e-commerce website to create a cleaner, more intuitive shopping experience. Improved navigation, visual hierarchy and product presentation, translating the new design across desktop and mobile.

UX/UI · User Flow · Usability · Visual Hierarchy

Good design makes a difference.

Education

Web Development
Syddansk Erhvervsakademi · Esbjerg, Denmark · Aug 2024 - Jan 2026

Built a strong understanding of how digital products work behind the interface, from frontend and databases to APIs and web security.

Full-stack Development · Web Security · Web Architecture

Multimedia Design
Syddansk Erhvervsakademi · Esbjerg, Denmark · Aug 2022 - Jun 2024

Developed a foundation in UX/UI, digital design and visual communication, creating user-focused solutions from research and concept to prototype.

UX/UI · Figma · Branding · User Research · Digital Marketing

Business and Marketing
Business Academy Watsonova · Košice, Slovakia · Sep 2017 – Jun 2022

Built a business perspective through marketing, strategy and market analysis, complementing my creative and digital background.

Marketing · Business Strategy · Market Analysis
